Hello Professor,

      I am Sasank Tadepalli. I completed my under-graduation in 2021 in Computer Science and Engineering at Velagapudi Ramakrishna Siddhartha Engineering College which is located in Vijayawada, Andhra Pradesh, India. After completion of under-graduation I worked as a Systems Engineer at Infosys for a year in India. I came to USA to pursue my Master's in Computer Science in August 2022. This is my second semester at California State University, East Bay. I currently live in Union City, CA. I have taken this course to learn how to identify threats, minimize risk, and learn strategies on preventing various cyber attacks. I would like to get a clear understanding on various algorithms we can use to protect data against hackers. I am very passionate about Web Development and I am proficient in MERN stack web development. When I am not coding I spend my time reading books and playing chess. I am currently reading The Shining written by the author Stephen King.
